What's new in Plimmerton?

More May madness

Fantastic news about our prize draw ... major prize!

Richard Young of Bay Gallery, a renowned photographer, has generously donated an original photographic art work as a prize for the draw at the AGM for those who have paid their subs this year! You can see some of Richard's work at

We don't know what it looks like yet, but we know from seeing his work and hearing from those who have enjoyed his workshops, that his photos are stunning. Thanks Richard.

Eagle eyed readers

So many of you comb the newsletter and well done to those with raptor vision who spotted the following:

- The artist we are working with on murals in Taupo Crescent and in the rail underpass is, of course, Rachel Benefield.
- The contact for rat traps in pestfreeplim@gmail.com and we hope those of you who spotted the error have invested in a trap from the correct address.

The noise you can hear in the background is our proofreading and editorial team being given appropriate correction.

Guest speaker Nick Leggett ... AGM highlight, Monday 30 May 7.30pm

- Nick will share insights from his time as mayor of Porirua city and talk about where to from here.
- Current, recent and future projects will be updated by project managers.
- Supper and refreshments at Plimmerton boating Club.
- Prize draw for those who have paid subs this year.
- You can catch up with friends and neighbours.
- And support your local residents' association.
- Why don't you think about joining a project team or the committee.
