and provide your address details. *Donations are also appreciated for  
projects. Receipts can be emailed for donations over \$5.*

## Meet Dave Lowe at our AGM

During his decades of experience as an atmospheric scientist Dave Lowe has measured the dramatic increase in atmospheric carbon dioxide which is driving the current climate crisis.

Coastal areas like ours are at the front line to feel the effects of this change. Dave will share his experiences as related in his recent award-winning book *The Alarmist*. This includes his time on the UN working group on climate change which was awarded the Nobel Peace Prize in 2007 for its 'ground-breaking contribution to human knowledge on climate change.' Lowe was also awarded the 2020 Wellingtonian of the Year Environmental Award.

## Responders share emergency experiences

As family, neighbourhoods and community is top of mind, we have set up street groups in Camborne and Plimmerton and emergency professionals will show how these are the backbone of community response to emergency situations. They will give insights into how professional responders are geared up to deal with these events. And they will show how you and your family can be actively involved in preparing to deal with emergencies.
